

STATE CROPS ARE IN GOOD SHAPE

Weekly Report Shows
That Cotton Is Climbing; Corn Is Made

OKLAHOMA CITY, Aug. 6.—The past week has been ideal for the growth of cotton, according to the weekly cotton crop report issued today by the Whitehouse section of the state board of agriculture. The last two months have been a period of uncertainty, the state board said, as cotton was not planted until late in May. It was not until mid-June that cotton was ready to be harvested, so the state board of agriculture said, and the report said, "the cotton crop is now in its second year of development."

The most recent cotton crop in the state is considered to be in good condition, and the report says, "cotton has the remainder of the state in full flower at the present time."

Nebraska, the early planted cotton, is in full bloom, and the report says, "cotton is in full flower at the present time."

The wheat crop is in full flower, and the report says, "wheat is in full flower at the present time."

The corn crop is in full flower, and the report says, "corn is in full flower at the present time."

All other crops, including truck and garden produce, are reported in good condition and condition would assure bumper yields, Whitehouse said.

The body of the dead man found in Western, Kan., has been positively identified as Jim Fletcher, who left his home in 1915 to fight in World War I.

All other men, including truck and garden produce, are reported in good condition and condition would assure bumper yields, Whitehouse said.

TO BUILD ZEPS HERE

United States Can Construct Its Own Giant Airships Battering Zeppelins to Arrive Here Soon.

WASHINGTON, Aug. 6.—Interest in the ZR-2, huge navy zeppelin which will arrive from overseas shortly after August 15, was heightened today by the announcement that the British nation now is in a position to build her own zeppelin. The present attempt was concentrated overseas, owing to the fact that the English possessed the only hangar large enough for the purpose.

In the largest New Jersey hangar which will house the big ship on her arrival here, the government now has the facilities for future construction of many such types, according to the navy department.

Political enemies of such a ship in the near future has been shot off with the curtailment of naval appropriations for the current year.

The navy department, however, has not abandoned its plan in this direction although the English had decided upon such a course.

VANDERBILT DEFEATED

Judge Rules That Reginald Must Pay Income Tax of \$20,000 on Payroll Received by Brother

NEW YORK, Aug. 6.—Reginald C. Vanderbilt must pay \$20,000 in income tax on the receipt of half a million dollars left him by his brother Alfred in 1915, according to a decision filed today by Judge Learned Hand in the federal court.

Suit was brought by the government against Reginald Vanderbilt, his wife, Marion, and his son Andrew, to recover alleged income taxes for 1915. Demurrers were filed, alleging that the sums totaling \$50,000 received by the Vanderbilt brothers were not for personal services rendered and so were exempt.

Judge Hand overruled the demurrers and granted judgment in the three cases in favor of the government.

Supreme Court to Take Up Mexican Oil Matters

LAWYER TO VISIT ENGLAND, REPORT.

London, Aug. 6.—Reports that Nicolai Lenin, premier of Soviet Russia, is about to visit England were revived today in a dispatch from Reval which said that he would come to this country about the middle of this month. In his absence, the London and Paris Trotskyist bureaus were informed.

The soviet government, it is added, has ordered its agents abroad to suspend their propaganda temporarily. Orders placed in other countries for machine guns and machine tools have been held up and the money has been held up so the money can be used for food purchases instead.

MEXICO CITY, Aug. 6.—More than 150 protests against the application of article 27 of the Mexican constitution will be taken up by the supreme court to-morrow. These were filed with the court in 1918 by petroleum companies. It is pointed out that the court's decision relative to these protests will have a direct bearing on the controversy as to whether the article in question is retroactive in its application.

LaFollette Probes U. S. Interest in Dye Patents

WASHINGTON, Aug. 6.—An inquiry into the interest of the American foundation and acquisition of 4,994 German dye-patent patents from the alien-property committee in February, 1919, was launched today by Senator LaFollette of Wisconsin during a hearing on the dye-enterprise provision of the Fordney tariff bill before the senate finance committee.

Unsatisfied miners have been found near Milwaukee, St. Paul, Des Moines, and Davenport, Iowa, to demand that the government not return the world's largest reserves of coal to Germany but that such a proposal be voted down and play a more important part in future.
